Security Electronic Systems :-

Al Najma Al Fareeda Security Company consolidates its Customers security coverage with a set of State of the Art Electronic Systems such as metal detectors, alarm systems against infiltrators, close T.V. Circuits, Wireless Communication Systems (Walky Talky) at affordable price.

Security Activities:-

We keep our Clients away from risks emphasizing preventing means and methods in step of rectification. Despite coverage for all its entry and exit points with T.V. Cameras, still it is only a support but not the only method by itself for control. Whenever a moving object or person enters or exits through the door of Building controlling the same outer surroundings shall be unreachable and impossible to control, therefore the Security coverage we, Al Najma Al Fareeda provides is arranged and organized as under :-

- * Control and Alarm ;**
- * Collect and Study information to prevent theft, offence and damaging of Property ;**
- * Strict dealing with suspected persons and their conducts to reduce criminal impacts;**
- * Control and follow-up sources, equipments and non-protected equipments and Systems;**
- * Specialized treatment for crisis till attended by Police or Management;**
- * Safety management against fire ;**
- * Provide first aid to the injured ;**
- * Provide Consultancy for Management about safety and security items;**

With various risk sources threatening Security of Buildings, we herewith provide general types for risks endangering Residential and Commercial buildings:-

1. Theft attempts:-

Residential and Commercial Buildings may be disposed for theft even though such attempts may be accidental or well planned. Despite spectacular standard security systems in the United Arab Emirates, but some theft attempts has recently been recognized;

2. Criminal Offences:-

Direct and consequential offence to Properties and Buildings may be attempted by Criminals which disturb the Buildings and may damage the same, such an offence may

be unseen or recognized unless there exists the appropriate Security and Control System in the Building which may reduce the risk of such disturbance, confusion and risks later on ;

3. Offensive Tenants and Clients:-

Sometimes Tenants and Clients may represent a source of offence and disturbance who might be risky and dangerous in the Building and surroundings;

4. Access Points:-

Existence of various access and exit points in the Building makes it difficult for adequate and effective control over the Building and arrangement for smooth functioning of Products and person. A close T.V. Circuit may be useful to control subsequently. Moreover it is important that a Supervisor shall control such systems which are availed by us for such Premises, particularly in vacating Tenants with default in payments;

5. Fire risks:-

In consideration that modern Buildings consist of many Architectural designs to accommodate more numbers and avail spacious Store Rooms which may be a direct cause for uncontrolled fire, therefore there is always a vital need for prior training and procedures for direct response when such incidents takes place in fast, skilled and effective manner ;

6. First Aid:-

Since Security Staff are always the only one attending the Buildings throughout the hours of day, therefore any Medical emergency will naturally be looked after by the said Staff. Our Security Staff is well trained in providing First Aid and can deal with such emergency Cases efficiently;

7. Emergency Cases:-

Emergency behavior is inevitably important to control and deal with any incident, therefore Star Security Staff guarantees provision of comprehensive and complete care with Professional trained and skillful Staff for your Buildings and Property ;

NATURE OF OUR SERVICES:-

As we are your Security Contractors, you shall always rely upon us for comprehensive care and security of your Property which includes:-
